

NNAJI DANIEL NDUBUISI

Junior Front-End Web Developer | React & Responsive UI | Clean, User-Focused Interfaces

Enugu, Nigeria | 09032562314 | danielnnaji89@gmail.com | [linkedin.com/in/nnajidaniel](https://www.linkedin.com/in/nnajidaniel)
[GitHub](#) | Live site: <https://dannelson-git.github.io/nnaji-daniel-portfolio/>

PROFILE

Front-end developer with a growing portfolio of live, deployed web projects built with HTML5, CSS3, JavaScript, and Bootstrap. Focused on translating designs into clean, responsive, mobile-first interfaces that work reliably across browsers and devices. Comfortable with the full build-to-deploy workflow using Git and GitHub Pages, with an analytical edge from a Statistics background that supports structured, logical problem-solving in code.

TECHNICAL SKILLS

Languages & Framework	HTML5, CSS3, JavaScript, Bootstrap
Tools	Git & GitHub, VS Code, GitHub Pages (deployment)
Core Concepts	Responsive & mobile-first design, UI implementation, cross-browser compatibility, performance optimization

PROJECT EXPERIENCE

Personal Portfolio Website | *HTML5, CSS3, JavaScript* — Live site: <https://dannelson-git.github.io/nnaji-daniel-portfolio/>

Designed and built a responsive portfolio with smooth animations to showcase projects and skills to recruiters.

- ▶ Structured the layout around clear navigation and fast load times, testing across screen sizes to confirm consistent behavior on mobile and desktop.
- ▶ Published via GitHub Pages for direct, live access to all featured work.

Hotel Website | *HTML5, CSS3, JavaScript, Bootstrap*

- ▶ Built a fully responsive hotel website with an image slideshow and intuitive multi-page navigation.
- ▶ Designed reusable UI components — nav bar, room cards, booking-inquiry section — to keep the codebase consistent and easy to extend.
- ▶ Tested across major browsers for rendering consistency and deployed the finished site via GitHub Pages.

Men's Tailoring Website | *HTML5, CSS3, JavaScript, Bootstrap*

- ▶ Built a responsive business site with product showcase, look-book gallery, service pages, and a working contact form.
- ▶ Implemented interactive sliders and responsive navigation using vanilla JavaScript, prioritizing smooth behavior on smaller screens.
- ▶ Organized the file structure and CSS to keep styling maintainable as new pages and sections were added.

Modern Shawarma Website | *HTML5, CSS3, JavaScript, Bootstrap*

- ▶ Built a responsive restaurant website with a digital menu and customer contact section.
- ▶ Applied mobile-first design principles from the start, building layouts for small screens first and scaling up.
- ▶ Structured the codebase for maintainability and managed version control with Git throughout development.

EDUCATION & CERTIFICATIONS

B.Sc. Statistics — Michael Okpara University of Agriculture, Umudike

- ▶ Diploma in Web Development | Basic Digital Literacy Training (BDLT) | NYSC — Certificate of National Service
